

# New titles in Built Environment and Transport

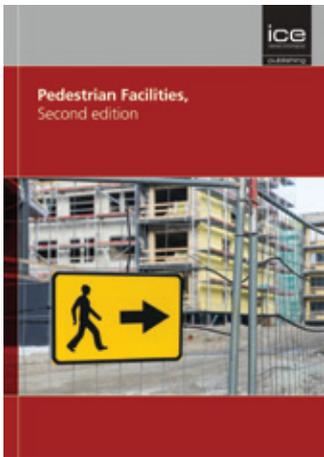

## Graphics for Urban Design, Second edition

*Bally Meeda*

The first edition of *Graphics for Urban Design* inspired a generation of computer graphics and influenced the way we tell the story of physical transformation. Now fully updated, this book will provide guidance on methods for producing hand-rendered and computer-generated visuals and details the entire planning process.

Packed with case studies and examples of best practice, this practical guide will be an essential purchase for students of graphic design as well as practitioners, commissioners, graphic designers, 3D artists, cartographers and project managers.

**978-0-7277-6171-2 / 144pp / 276 x 219mm / August 2018 / Paperbound / £55.00 / \$88.00**

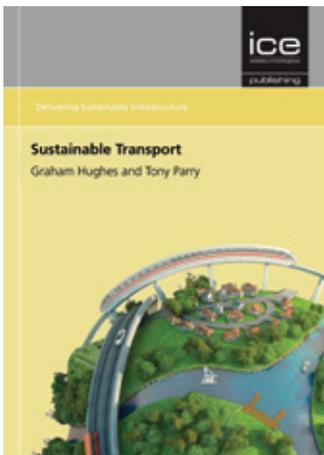

## Pedestrian Facilities, Second edition

*John Schoon*

*Pedestrian Facilities* provides detailed guidance on the design of pedestrian facilities to ensure the safety, comfort and convenience of pedestrians and other road users. Coverage includes current practice as described in governmental guidance and advice; methods of evaluating pedestrian schemes to improve and refine specific designs; and a range of case studies to illustrate key aspects of design and evaluation.

This edition has been fully updated to cover the latest design guidance, research and government policies, and also includes a new chapter highlighting examples of best practice outside the UK. *Pedestrian Facilities* is intended for use by practitioners and students involved in civil engineering aspects of design projects for highways and public spaces, and it will also assist urban planners, architects and the broad range of people involved with pedestrian facilities within the public realm.

**978-0-7277-6309-9 / 352pp / 234 x 156mm / October 2018 / Paperbound / £65.00 / \$85.00**

## Sustainable Transport

(Delivering Sustainable Infrastructure series)

*Edited by Tony Parry*

*Sustainable Transport* is an invaluable resource for engineers in design and engineering consultancies, government and environmental agencies, research institutes, universities and colleges. It provides a commentary on how sustainability principles can be interpreted in the provision of transport infrastructure, alongside good engineering practice at different stages of the planning and delivery lifecycle.

*Sustainable Transport* is designed to spark ideas and, by the use of case studies and examples, to raise questions and challenge conventional ways of thinking and to show where opportunities for change really exist.

**978-0-7277-5757-9 / 136pp / 234 x 156mm / November 2018 / Paperbound / £30.00 / \$55.00**

# Also in Built Environment and Transport

Accessibility and the Bus System, Second edition

*Nick Tyler*

**978-0-7277-5980-1 / 416pp / 2015 / Hardbound / £110.00 / \$177.00**

---

Deterioration and Maintenance of Pavements

*Derek Pearson*

**978-0-7277-4114-1 / 304pp / 2011 / Paperbound / £78.00 / \$125.50**

---

Highways, Fifth edition

*Edited by Coleman O'Flaherty*

**978-0-7277-5993-1 / 616pp / 2015 / Paperbound / £52.00 / \$82.00**

---

ICE manual of highway design and management

*Ian Walsh (ed)*

**978-0-7277-4111-0 / 714pp / 2011 / Hardbound / £214.00 / \$330.50**

---

Manual For Streets

*WSP, TRL, DfT and DCLG*

**978-07277-3501-0 / 176pp / 2007 / Paperbound / £29.00 / \$52.00**

---

Practical Road Safety Auditing, Third edition

*Martin Belcher, Steve Proctor and Phil Cook*

**978-0-7277-6016-6 / 208pp / 2015 / Hardbound / £72.00 / \$117.00**

---

Principles of Pavement Engineering, Second edition

*Nicholas Thom*

**978-0-7277-5853-8 / 420pp / 2013 / Hardbound / £114.00 / \$157.00**

---

Qualityreviewer: Appraising the Design Quality of Development Proposals

*Cowan et al.*

**978-0-7277-4057-1 / 104pp / 2010 / Paperbound / £48.00 / \$85.50**

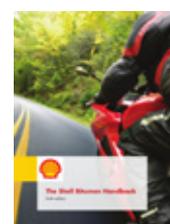

---

Rethinking Masterplanning: Creating Quality Places

*Husam AlWaer; Barbara Illsley*

**978-0-7277-6071-5 / 256pp / 2017 / Paperbound / £60.00 / \$110.00**

---

The Motorway Achievement: Building the Network

*William J. McCoubrey*

**978-0-7277-3198-2 / 696pp / 2008 / Hardbound / £118.00 / \$195.00**

---

The Shell Bitumen Handbook, Sixth edition

*Edited by Robert N Hunter*

**978-0-7277-5837-8 / 808pp / 2015 / Hardbound / £120.00 / \$197.00**
